

INTRODUCING OUR NEW PARTNERSHIP: PREMIER STEEL™ AND GREEN FROG SYSTEMS

We are excited to announce that Premier Steel is now an official representative of Green Frog Systems. This collaboration brings together innovative solar lighting solutions with industry-leading expertise, ensuring that Premier Steel customers have access to the most reliable, sustainable, and advanced lighting technology available.

Through this partnership, we're committed to delivering cutting-edge solar-powered solutions tailored to meet the unique needs of your projects, all while emphasizing efficiency, eco-friendliness, and cost savings.

FAST CAST BRIDGE®: NOW FEATURING INTEGRATED SOLAR LIGHTING FOR ENHANCED SAFETY

Premier Steel's innovative Fast Cast Bridge® is now enhanced through an exclusive partnership with Green Frog Systems, the leader in reliable, solar-powered lighting solutions. This collaboration allows Premier Steel to deliver an all-in-one solution that combines the unmatched durability and efficiency of the Fast Cast Bridge with integrated solar lighting, eliminating the need for additional wiring and installation steps.

SHELTER LIGHT

ALL-IN-ONE

DISTRIBUTED

With Green Frog's cutting-edge, customizable solar lighting systems, bridges are illuminated from day one, enhancing safety and visibility in even the most remote locations. This partnership not only streamlines the bridge installation process but also reduces long-term energy and maintenance costs, making the Fast Cast Bridge a more sustainable and cost-effective choice for infrastructure projects.

Together, Premier Steel and Green Frog Systems are redefining convenience, safety, and efficiency in bridge construction.
